PRIVATE TREATY SALE:

VIEWING: Bulls will be located at 215 Pineview from now through Dec.

1. They will be penned for easy viewing from 9:00 – 11:30 MST on Friday Dec. 1.

SALE: The opening day sale will be held at the Dawes County Fairgrounds at 12:00 MST on Fri. Dec. 1

PARTICIPATION: Three options.

1. On Friday December 1, 2017 come look through the bulls and make your selections. Then join us at the fairgrounds at 12:00 MST and you can offer your bid as we proceed through the sale order.

2. Come, look, and select your bulls anytime. Notify us of which lots you are interested in and we will call you when that bull is being sold. You can raise your bid live via telephone.

3. Leave your order with Ann or I and we will have someone bid in your absence.

All bulls will be base priced at \$2500. If two or more are interested in a bull we will raise the bid in \$250 increments until the bull is sold. If you are the only person interested in the bull you may buy him at the base price.

DELIVERY: The first 500 miles is free, remainder at cost.

HEALTH: All bulls will have passed a semen test, be wormed, and poured. Every bull in the offering is a virgin.

GUARANTEE: If you are not satisfied, I am not in business. If you are not satisfied for any reason prior to 11/1/2018 simply return the bull for full credit less \$1000. No questions asked. Example: Purchase bull for \$4000. Bull becomes unsatisfactory at some point. Return bull and receive credit for \$3000 to be used towards a replacement. You must return the bull; mortality is not covered.

Welcome

Thank you for your interest in our program. I'm continually amazed and grateful that we have quietly sold 30 – 50 bulls a year for the past 20 plus years due to the support of our customers.

The bulls had grass hay supplemented with a distiller and soy hull pellet through last winter. They spent the summer on pasture until 10/15/2017 at which time they were put on oat hay and supplemented with a distillers cube. I like to develop them slowly and avoid starch.

We've included the basic numerical data in the catalog. The birthweights are taken with a scale, not a tape. I haven't found any numerical measure to be particularly valuable to my goal of stabilizing a good type and replicating it more often. The following quote by Larry Leonhardt has been of much more value to me than any number.

"From these experiences with mild to intense close breeding over time, I have come to believe the phenotypic selection criteria self-governs the level of inbreeding or degree of prepotency; that production levels are self-governed by the environment; that milk levels and carcass values are self-governed by their effect on composition and that composition has the greatest impact on functional reproductivity. So, improving the prepotency of composition once identified seems to be 'priority 1' at any preferred production level."

Every bull in this offering is influenced by Shoshone Prudence 6157, a prolific cow that lived to be 19 years of age. She was an outstanding example of Bonsma type. He wrote, "The body of the highly fertile female is in beautiful proportion; she looks feminine or broody... Her brisket is not full and a fold of skin takes the dewlap all along the brisket backwards; the entire body profile shows the forequarters to be sleek and light and the hindquarters to have capacity and "depth". The highly fertile cow is of slender build compared to her subfertile counterpart. Her neck and front portion are slim and her coat is sleek. She carries not fat or coarse muscling; her shoulder blades are lean and loose... The subfertile cow stands in sharp contrast to the overall impression of femininity of her fertile counterpart... This includes increased depth through the chest, a heavy and full brisket that slopes downward and forward. The head is coarse, with fleshy cheeks and a heavy lower jaw; a buffalo hump, over-fleshed and fat, is typical...with overall excessive muscular definition."

Any individual bull might fail, but on the average these bulls that have been lined up to cows with functionally reproductive conformation, will not fail to pass those characteristics on to their daughters. Breeding cattle like this is our way of serving the commercial cattle industry.

We always look forward to hearing from many of you this time of year. If there is anything I can do to help with your selections, please don't hesitate to contact me.

John Dockweiler

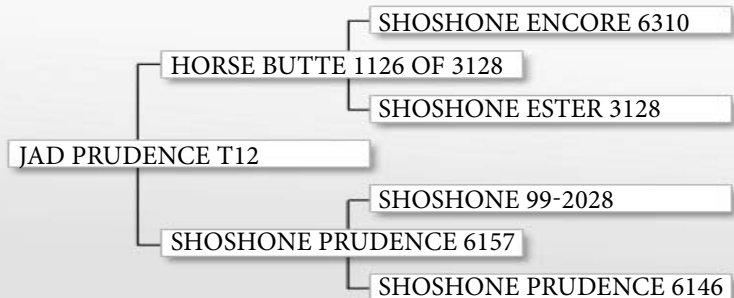

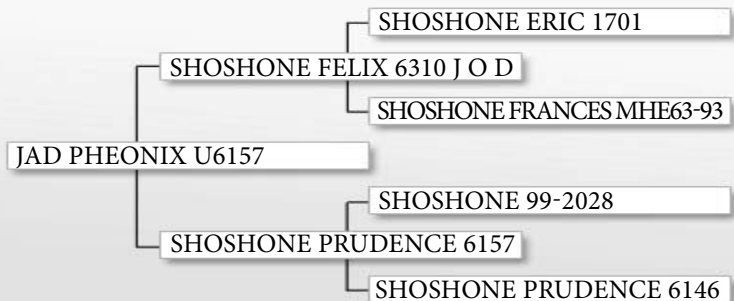

JAD PHOENIX AT12

DOB: 4/10/13
REG: #17763134

CED	BW EPD	WW EPD	YW EPD	MILK	\$EN	\$WN
+3	+6	+12	.20	+9	+38.64	-4.61

JAD Phoenix AT12 has grown into a nice bull. He is the product of a half-brother x half-sister mating out of Shoshone Prudence 6157. He also combines the beefiness of the Encore/Felix topline of sire and dam with the finesse, femininity, fertility, and milk of the double bred Echo bottom side of the pedigree of sire and dam. It's a complimentary blend and the result is functional range cattle.

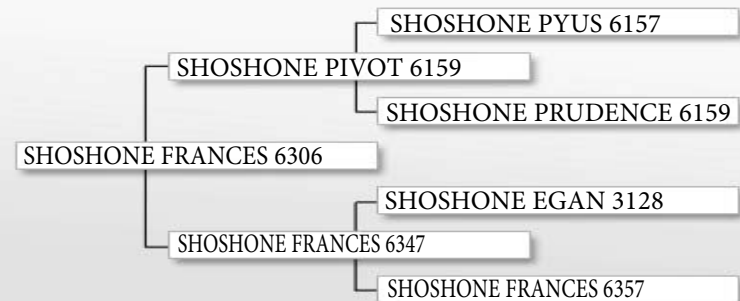

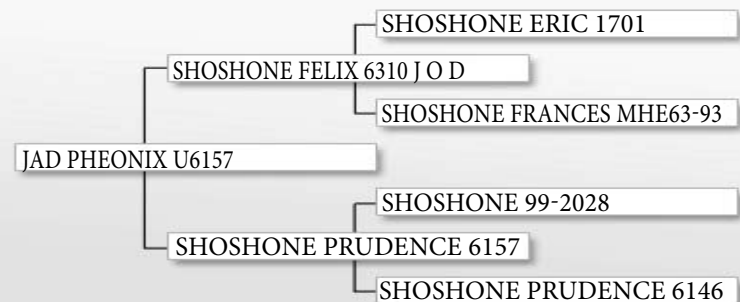

JAD FIREBRAND A6306

DOB: 4/12/13
REG: #17763137

CED	BW EPD	WW EPD	YW EPD	MILK	\$EN	\$WN
+4	-.2	+8	+11	+11	+38.99	-4.74

His dam Shoshone Prudence 6306 is excellent. She is the mother of some of the best bulls we have identified. JAD LAD S6306, JAD FX T6306, and JAD Fremont Z6306. At 16 years of age she has recently become a donor cow at Loyning Angus. Due to an injury, this will be our last crop out of Firebrand.

JAD ELUSIVE A2549

DOB: 5/13/13
REG: #17849856

CED	BW EPD	WW EPD	YW EPD	MILK	\$EN	\$WN
-3	+2.3	+17	+24	+13	+32.52	+3.01

Elusive is an attractive well-made bull out of one of our top cows. Her son by JAD Phoenix AT12 was retained from the 2016 calf crop.

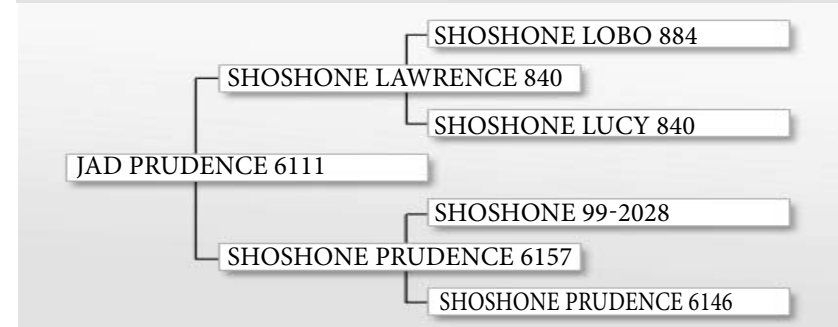

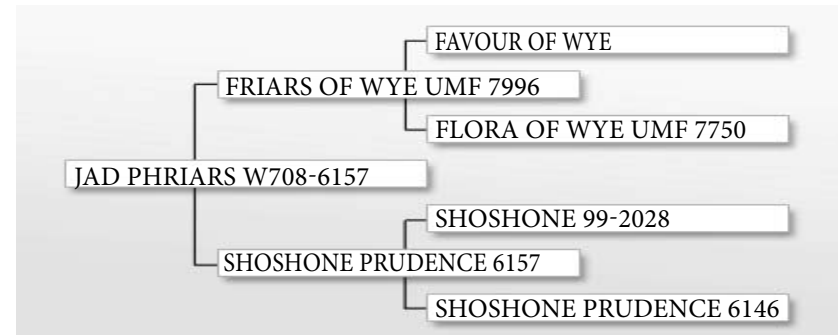

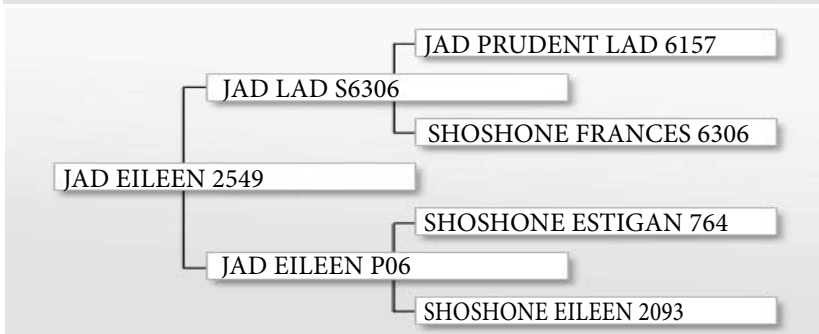

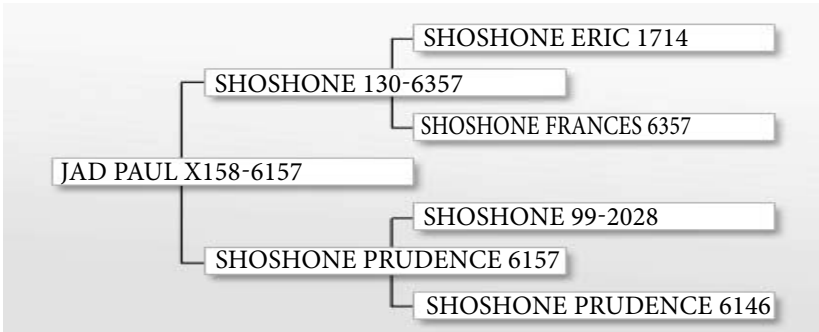

JAD PHRIARS A6111

DOB: 4/29/13
REG: #17763132

CED	BW EPD	WW EPD	YW EPD	MILK	\$EN	\$WN
+4	+3	+18	+25	+20	+23.72	+17.03

A6111 is another half-brother x half-sister bull out of Shoshone Prudence 6157. We continue to line breed 6157 because of the value of her maternal characteristics. A6111 is moderate, balanced and sound.

JAD ESTERAGO A3128

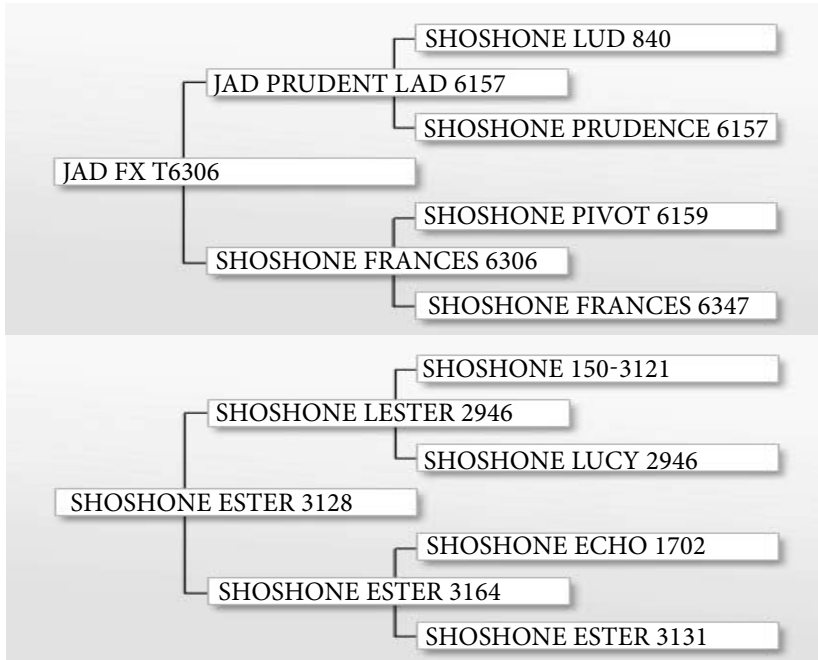

DOB: 5/5/13
REG: #17779682

sire

CED	BW EPD	WW EPD	YW EPD	MILK	\$EN	\$WN
-3	+2.9	+19	+26	+15	+29.40	+5.91

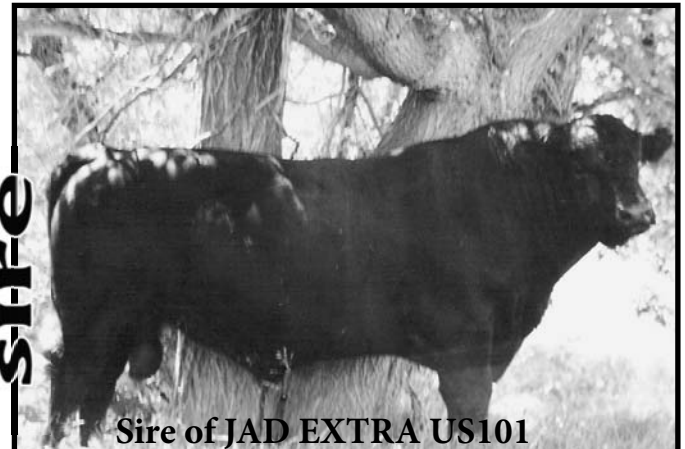

His dam is the cow that I would show to people to demonstrate femininity, maternal wedge, and Bonsma type. She was beautifully feminine. Esterago was her last calf. His sire FX T6306 is the one bull I would like to have back because of how consistently he hit the “just right” category with his daughters.

JAD EXTRA US101

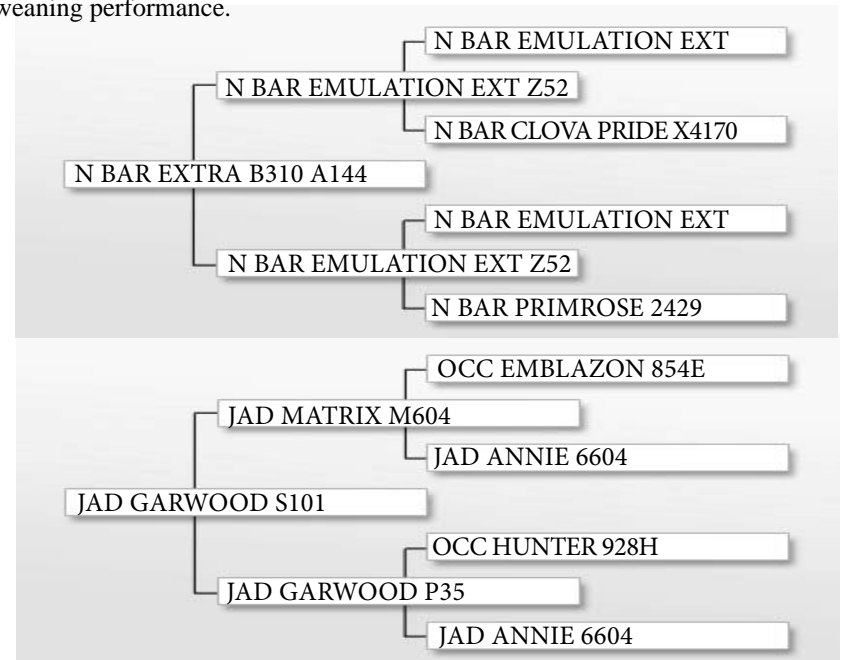

DOB: 5/29/08
REG: #16504370

sire

CED	BW EPD	WW EPD	YW EPD	MILK	\$EN	\$WN
+13	-2.3	+25	+43	+17	+20.44	+21.77

I never got around to saving a son of N Bar Extra B310 A144 so I was happy when Bernie Stefan of Goodland, KS let me buy an interest back in US101. He is siring moderate to small frame with low birth weights and calving ease, along with excellent pay weights. US101 bred cows this past summer at 9 years old. His dam is still here; productive and sound, at 11. His first daughters seem to be carrying on the Annie cow family tradition of low birthweights and excellent weaning performance.

John, Del, Jayde, & Jed

Full sister to JAD Phriars W708-6157

“Aluminum doesn’t depreciate as quickly as steel”, I thought.

Notes
